Nu kan du äntligen Swisha!!

Det är många som efterfrågat möjligheten att swisha när ni ger till barnen i Indien. Nu kan du göra det.

Helpforchildren.se Swish 1235622774

Spara numret i din telefon. Det går lika bra att ge via swish som vårt bankgiro. Du väljer själv.

Nya skolväskor, tjejlag i "throw ball", hälsokontroll för alla barnen mm

Som vanligt rapporterar Dhiraj John om läget för barnen på barnhemmet i Bangalore. Han skriver följande:

"It's summer time in Bangalore right now, it's getting hot for all of us, and kids are too feeling the heat, not only of the weather but also the exams which are coming up in 2 weeks' time. All kids are preparing for their final exams which will start soon. Anton school kids also have been studying hard and preparing for their exams.

In the month of January, we were able to buy school bags for all 175 children. Thank you Help for Children for your support. Kids were so happy to receive them.

Nya skolväskor inköpta med pengar från julinsamlingen 2016.

Living Hope Vegetable garden

In the midst of exams and weather being hot, our kids planned to start growing vegetables in our own garden. We were able to grow beans, carrot, Radish, Pumkin and etc. Kids worked very hard to get this organized and it really paid off well.

Girls throw ball tournament

Recently we had a Throw ball tournament for our senior girl's team and we have 20 schools participated, and guess what our Living Hope team were the winners of the throw ball tournament.

Health check for all the kids

Just last week we had organized a health checkup camp for all our kids, we had 10 to 15 doctors who came and checked up our kids from head to toe, as we found out there was some viral infection spreading in the air, and most of the kids were suffering with this sickness, high fever and cold.

Thanks to Help for children that we could arrange this camp, as we regularly receive support for Help for children, so this time we could use the money for this purpose. And it really helped our kids.

Bilder från hälsokontroll av alla barnen sista veckan i februari.

Problems with mosquito

Also we realized that Mosquito at the children's home and in the neighboring areas were a bit of a concern for us, so we thought of buying our own mosquito spray and one of our student is already help us get rid of mosquitos. Thanks **Help for Children** for helping us buy this mosquito spray machine."

...

Så långt Dhirajs rapport. Kan avslutningsvis konstatera att de gör ett fantastiskt jobb med barnen. Genom att tro på dem, bry sig om dem mitt i alla utmaningar det är att ansvara för 175 barn och förbereda dem för ett liv på egna ben. Särskilt kul att se att de mitt i den indiska kulturen satsar på och lyfter fram sport för tjejerna på barnhemmet.

Fortsätt var med och stöd barnen! Har du frågor kontakta oss på info@helpforchildren.se

Om oss: *Helpforchildren.se är en ideell förening med enda syfte att stödja och utveckla barnhemsverksamhet i Indien.
Allt arbete sker ideellt varför det du ger oavkortat går till barnen*
